ONE HOME UNIVEARTHSITY

Message from the Co-Founders and Co-Chairs

Human actions are making our Earth home increasingly uninhabitable for the family of life.

It is essential for humanity to regenerate our One Home by restoring our unity with the diversity of life on Earth, and by co-creating integral systems that nurture the interconnected wholeness of life.

One Home UnivEARTHsity, stewarded by the growing Home for Humanity movement, accelerates this necessary transformation, in close collaboration with our renowned global and local partner organisations.

One Home UnivEARTHsity champions pioneers who are preserving and innovating life-based systems, and catalyzes and connects aspiring future builders, locally and globally.

One Home UnivEARTHsity's co-learning Earth Journeys create radical inclusion and exponential impact by unleashing the power of our homes:

the inner home of personal transformation,
the local home of community and societal renewal, and
the Earth Home, through our collective and connected initiatives for planetary regeneration.

Earth Citizen by Earth Citizen, home to home, culture by culture, and country by country: together we can co-create Home on Earth for all of life ... and for the seven generations to come.

We welcome you as co-creators of the One Home UnivEARTHsity!
