Planetary Peace and Wellbeing

The One Home Journey 2024-2030

WHAT: A 7-year journey reaching out to every country on Earth:

- to support and connect Earth Citizens and their initiatives, across all borders - to care for the Earth and for each other, and
- to draw on the cultural wealth, Indigenous wisdom and local innovations of all countries to jointly shape a future of planetary peace and wellbeing for all.

WHY: Life on Earth is in danger.

Yet, everywhere, humanity is rising to claim Earth Citizenship and to take the journey from devastation and division to regeneration and unity. As Earth Citizens, we can tip the balance in favour of life.

*A "Planetary Journey
to the Rescue of the
2030 Agenda"*

HOW: With Earth citizens worldwide, the One Home Journey initiates:

- **Homes for Humanity:** honouring and championing innovative and courageous local initiatives that care inclusively for people, community and the Earth.
- **Unity Gardens for Peace with Nature and All Cultures:** to experience and care for biological and cultural diversity, and the interconnectedness of all life.
- **Earth Citizens' Quests:** Inter-generational, experiential, life-based 3-day learning journeys, and a Children's Quest to paint dreams and plant gardens (1/2 day).
- The **One Home UnivEARTHsity:** co-creating as Earth Citizens a free, common platform for the collective learnings of the Journey, across all countries.
- **Transformative Public Performances, Films & Books:** sharing the unfolding story of humanity's journey for our One Home Earth, and inspire action.
