

Our Common Story: 5/2023
18 July 2023: Marking Nelson Mandela International Day

Dear Friends and Co-Creators,

*We are living in dramatic times that often weigh us down.
 But we also live in times of great possibility that can make us rise.*

In the fifth edition of "Our Common Story", marking Nelson Mandela International Day, we share with you a new chapter of the Home for Humanity Movement for Planetary Regeneration, together with partner organisations worldwide. A chapter we co-author, to rise together!

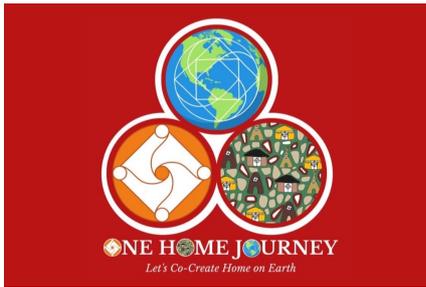

*This new chapter is the **ONE HOME JOURNEY - 7 Years for 7 Generations!** We invite you warmly to engage with us, support us, and join us in this collective journey!*

*As you read through our milestones and activities in the first half of 2023 - all building up to the One Home Journey - let Mandela's words ring in you:
 "It always seems impossible until it's done."*

Alexander and Rama, with the Home for Humanity family
