

YOUTH FOR THE FUTURE' Country Scholarships

The One Home UnivEARTHsity catalyses the power and potential of youth to reshape our shared future.

Each year up to 25 youth from marginalised backgrounds who are highly motivated to become integral leaders serving their communities and the Earth, will receive scholarships, in each of the 35 countries visited each year by the One Home Journey.

YOUTH
FOR THE
FUTURE

Thirst for Purposeful Future-building: The youth scholars will be chosen primarily from marginalised backgrounds or disadvantaged contexts, including those who have been displaced, uprooted or denied their rights. It will include those who have not had access to formal education or chose not to follow conventional education, but have a thirst for life-based learning and purposeful future building.

Scholarship Programme: The Youth will follow the 1 year Mother Earth Dipl-Home, giving them a profound connection to and knowledge of the diversity of nature and culture around the earth, as they grow into integral leaders. In collaboration they will:

- Develop their integral leadership skills
- Express their unique creativity
- Innovate their holistic future-building initiative that fulfils their purpose, taps their potential, provides regenerative livelihoods, serves their community, and contributes to regenerating the Earth.

They will receive an on-site intensive when the One Home Journey is in their country. They will present their initiatives publicly and be recognised locally and globally

The Power of 7 for Exponential Impact: Each youth will co-journey, co-learn and co-create with up to 6 community members to amplify and sustain long term impact.

Inspiration and Mentorship by Youth Pioneers: They will encounter pioneers from Homes for Humanity initiatives who overcame marginalisation as youth, e.g. Linda Leogah Forkwah, Integral Leewah Revolution (Cameroon); Enzo Ikah refugee musician-activist (DR Congo / Turkey); Dr. Daud Taranhike, Integral Kumusha (Zimbabwe).

Long Term Impact: With about 800 Youth for the Future from 35 countries across all continents each year, totalling over 4000 youth from all 195 countries on Earth over the five years, these once-disadvantaged youth will emerge as a global community of integral leaders, and conscious and caring Earth Citizens, in service of their local communities and of future generations on Earth.
